

Water, Wastewater and Stormwater Rates

Rates are effective May 1, 2019

2019 User Rates

Aurora Town Council approves water rates each year, which includes charges for water use and wastewater disposal. As of May 1, 2019, the combined rates increased by 10 cents per cubic meter.

The new rates for 2019 are effective for all bills issued on or after May 1, 2019. The full costs of operating the water distribution system, the wastewater collection system and the stormwater collection and management system are fully recovered from user charges, not the tax levy. The Town of Aurora is required to recover the necessary capital costs to maintain the systems in perpetuity.

Water and Wastewater Rates

Effective Date	Cost per cubic meter		
	Water	Wastewater	Combined
May 1, 2019	\$2.18	\$2.65	\$4.83
May 1, 2018	\$2.01	\$2.72	\$4.73

Stormwater Rates

Type	Rate
Residential (including residential condominiums)	\$5.44 per unit per monthly or \$16.32 per unit quarterly
Commercial, industrial, multi-residential properties (i.e. apartment buildings)	\$69.08 per meter monthly or \$138.16 per meter bi-monthly

Typical Residential Customer Billing

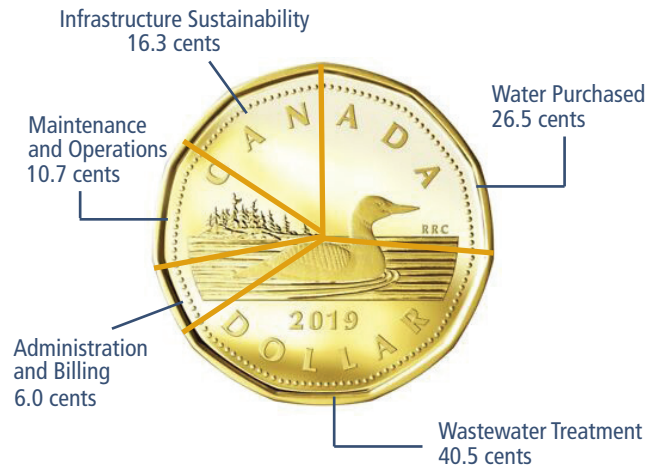

Residential customers are billed every three months (quarterly). Average residential water use per quarter is 62 cubic meters. A residential customer using this amount of water will have a billing increase of \$6.20 each quarter.

Type	2018	2019	Increase (Decrease)
Water	\$124.62	\$135.16	\$10.54
Wastewater	\$168.64	\$164.30	(\$4.34)
Total	\$293.26	\$299.46	\$6.20

Water Meter Readings

Residential water meters are read each quarter which avoids estimated bills and ensures you are billed only for the water you have used. Please be aware that higher-than-normal consumption may indicate a leak within your home. Property owners are responsible for all water that is registered on the water meter. Please check the leak indicator on your water meter to ensure that you do not have a leak.

Customers with an amount due after the due date will have a **5 per cent penalty** added and are issued a reminder notice giving them ten business days to pay. If payment is not received within the 10 days, the outstanding invoice will be transferred to the property tax account and a \$30 charge will be added. This could result in a lien against the property in accordance with Section 398 subsection 2 of the Municipal Act and will be collected in the same manner as your property tax.

ADVISORIES

Please be advised, neither Council or Town staff have the authority to waive or alter late payment or interest charges.

Failure to receive a water bill does not excuse a resident from the responsibility for payment and does not relieve them of late payment charges.

RENTING YOUR PROPERTY

If you would like your tenant to receive the water/wastewater bill, please fill out the mandatory form found under the category "Renting Your Property". You can find the forms on our website aurora.ca/waterbilling. In the event the charges for water/wastewater are not paid by said tenant, the arrears becomes the property owner's responsibility and may result in the transfer of arrears to the property tax account.
