   (i) Notices of Motion

      None

      On Approval of the Agenda, Council consented to allow Notice of Motion (a) to be considered prior to Adoption of the Minutes.

   (ii) Motions for Which Notice Has Been Given

      (a) Councillor Abel

         Re: Construction of Planned Secondary School in Official Plan

         Main motion
         Moved by Councillor Abel
         Seconded by Councillor Gaertner

         Whereas The Town of Aurora has an Official Plan, approved by York Region and in conformity with the Province of Ontario; and

         Whereas the Official Plan for the Town of Aurora complies with sound planning principles, to guide development of major new neighbourhoods, known in Aurora as the Bayview - Wellington Centre Planning Area, and the 2B and 2C Planning Area; and
Whereas these neighbourhoods on either side of Bayview Avenue are complete and home to 13,000 residents; and

Whereas the 2C community is nearing completion and will be home to another 9,000 residents for a total of 22,000 residents; and

Whereas there is a York Region District School Board (YRDSB) Secondary School indicated in the Town's Official Plan, on Bayview Avenue at Borealis Avenue, to serve these residents, and the land is still undeveloped and vacant for the past 15 years; and

Whereas the residents of this catchment area have been told that they will have their Secondary School enrollment needs met at Dr. G. W. Williams Secondary School; and

Whereas this does not meet the needs of the residents, nor does it comply with our Official Plan, nor does this type of commute conform with the orderly function of the Town, that the students must commute an average of 6 km to school, through the already congested GO Transit Station area; and

Whereas the residents of this catchment area are approaching 60% of the student body at Dr. G. W. Williams Secondary School, and it will only increase as this area grows and ages; and

Whereas there are further enrollment issues that reduce specialized programs, extracurricular activities, and the number of specialized teachers and staff; and

Whereas 20% of a resident’s annual Property Tax, which is collected and then paid by the Municipality to the treasury of the YRDSB; and

Whereas, if the YRDSB property was sold to development, this would further add to the catchment area population and increase the YRDSB Treasury with little to show for the residents’ needs; and

Whereas the residents could simply walk to the Secondary School as planned; and
Whereas, if the YRDSB has funding challenges, they could collaborate with the Municipality, York Region, the Ministry of Education, and the Province, to engage with expediency to arrive at a solution;

1. Now Therefore Let It Be Hereby Resolved That Council supports the Official Plan and the construction of the planned YRDSB Secondary School, on the property purchased by the YRDSB, to serve the needs of the catchment area; and

2. Be It Further Resolved That a copy of the Council resolution be forwarded to the Ministry of Education, MPP Chris Ballard, and York Region; and

3. Be It Further Resolved That dialogue/collaboration take place beginning in the last quarter of 2016, between the Town of Aurora and the YRDSB, and that invitations be extended to MPP Chris Ballard, York Region, and other interested partners to arrive at a solution.

Amendment

Moved by Councillor Mrakas
Seconded by Councillor Thompson

That the main motion be amended by adding the following operative clause:

That a representative or the Aurora-King Trustee from the York Region District School Board be invited to attend a future Council meeting and present further information regarding the proposed secondary school.

Carried

Main motion as amended

Moved by Councillor Abel
Seconded by Councillor Gaertner

1. Now Therefore Let It Be Hereby Resolved That Council supports the Official Plan and the construction of the planned YRDSB Secondary School, on the property purchased by the YRDSB, to serve the needs of the catchment area; and

Subject: Parking Restrictions in Heritage Area Motion – Legal Implications

Prepared by: Patricia De Sario, Town Solicitor

Department: Corporate Services

Date: November 8, 2016

Recommendation

1. That Report No. CS16-011 be received for information.

Executive Summary

The purpose of this report is to provide Council with the legal implications of the Parking Restrictions in Heritage Area motion considered by Council on October 11, 2016.

- The intent of section 106 of the Municipal Act, 2001 is to prevent municipalities from giving unfair assistance to businesses to the detriment of competing businesses.
- In granting the staff parking permits at no cost, Council would not be violating the bonusing provision set out in Section 106 of the Municipal Act, 2001, but it would be setting a precedent to provide permits at no cost to other residents and local businesses.

Background

At the General Committee meeting of May 17, 2016 staff brought forward Report No. BBS16-007 – Town Park Parking Update. The report recommendations were as follows:

THAT Report No. BBS16-007 be received; and

THAT fifteen (15) parking spaces at Town Park be allocated for GO commuters as part of the Parking Permit Program; and

THAT staff bring forward to a future Council meeting for enactment, amendments to Parking By-Law No. 4574-04.T to expand the two (2) hour daytime on-street parking restriction to Harrison Avenue, Connaught Avenue and Edward Street; and
THAT staff investigate the ability to allow for temporary overflow GO parking at the north entrance to Sheppard’s Bush off of Mary Street.

At the Council meeting of May 24, 2016, the following recommendation carried:

THAT Report No. BBS16-007 be received; and

THAT staff bring forward to a future Council meeting for enactment, amendments to Parking By-Law No. 4574-04.T that includes a three (3) hour daytime on-street parking restriction Monday to Friday, affecting all streets within the boundary of Yonge Street to the west, Edward Street to the east, Dunning Avenue to the south, and Centre Street to the north; and

THAT staff investigate the ability to allow for temporary overflow GO parking at the north entrance to Sheppard’s Bush off of Mary Street; and

THAT a copy of this resolution be sent to York Region Transit and Metrolinx.

On July 12, 2016 the three hour daytime restriction was expanded all streets north of Wellington Ave., east of Yonge St. up to and including Mark St.

The three-hour maximum daytime parking restriction in the Heritage area of the Town was intended to discourage commuters using the GO Transit system from parking on streets all day. This restriction has impacted other area residents and local business, including Kennedy Medical Centre. As such, on October 11, 2016, Council was asked to consider a motion in regard to Parking Restrictions in Heritage Area. The motion resolved to direct staff to make allowances for parking permits to be issued to Kennedy Medical Centre staff and technicians, at no cost.

Prior to making its decision on the motion, Council asked staff to investigate any bonusing provisions and legal implications and report back to Council.

The purpose of this report is to advise Council on the legal implications of the motion.

Analysis

The intent of section 106 of the Municipal Act, 2001 is to prevent municipalities from giving unfair assistance to businesses to the detriment of competing businesses

Subsection 106(1) of the Municipal Act, 2001, S.O. 2001, c. 25, as amended (the “Act”) states that a municipality shall not assist directly or indirectly any manufacturing
business or other industrial or commercial enterprise through the granting of bonuses for that purpose. Subsection 106(2)(d) further states that the municipality shall not grant assistance by giving a total or partial exemption from any levy, charge or fee.

While what constitutes a bonus is not defined in the Act, case law has interpreted it to be “conferring an obvious financial advantage”. The prohibition in the Act is found under the “Economic Development Services” section. As such, the intent of section 106 is to prevent municipalities from giving unfair assistance to businesses to the detriment of competing businesses (i.e. an unfair advantage in the commercial marketplace).

In the matter at hand, by making allowances for parking permits to be issued at no cost, the Town is likely not violating the bonusing provisions.

First, a free parking permit is to individual staff members and technicians and not the commercial enterprise and secondly, it would likely not give Kennedy Medical Centre an unfair advantage over competing businesses.

In giving an allowance for parking permits to be issued at no cost, Council would be setting a precedent.

The maximum parking restriction affects many residents and local businesses and not just the staff at the Kennedy Medical Centre. While the Town has given some allowance to the library, cultural centre and church when there are special events, most people, including those who park around Town park, have been required to purchase parking permits from the Town. Many other residents and businesses may request the same type of relief from Council of not having to pay for parking permits or requesting refunds from parking permits already paid for.

Advisory Committee Review

Not applicable.

Financial Implications

The cost of a parking permit is $400 per year.

Communications Considerations

None.
Link to Strategic Plan

Not applicable.

Alternative(s) to the Recommendation

None.

Conclusions

By directing staff to grant parking permits at no cost to the staff and technicians at Kennedy Medical Centre, Council would not be violating the bonusing provision set out in Section 106 of the Municipal Act, 2001, but it would be setting a precedent to provide permits at no cost to other residents and local businesses.

Executive Summary

To present to Council for its formal adoption the 2016 Asset Management Plan, the 2016 Ten Year Capital Investment Plan and the 2017 Capital Budget as recommended by the Budget Committee on October 15, 2016.
Background

Each year staff presents the town’s Asset Management Plan, Ten Year Capital Investment Plan as well as its Capital Budget Plan for the following fiscal year for its review and/or approval. Upon receipt and/or approval by council these documents provide staff with the direction to proceed with the identified capital projects for the following year.

Analysis

Asset Management Plan (AMP)

The Asset Management Plan forms the foundation upon which the town bases its existing asset repair, replacement and rehabilitation decisions upon. It is a strategic document stating the characteristics and condition of infrastructure assets, levels of service expected from them, planned actions to ensure the assets are providing the expected level of service, specifically including how evaluation and replacement decisions are made, and financing strategies to implement the planned actions. The overall intent of the AMP is to help the Town to ensure that its investments in its existing assets are made at the right time, future repair and rehabilitation costs are minimized, and municipal assets are being appropriately maintained for the optimal service life at the lowest cost. In the updated 2016 Asset Management Plan, the core foundational methodologies for asset repair, replacement & rehabilitation remain unchanged from those approved by Council in 2015. The only changes made to the updated 2016 AMP relate to its financial tables which have been updated to ensure continued alignment with the town’s most recent ten year capital investment strategy. In particular, these changes reflect recent Budget Committee direction to include $1,000,000 for the Cultural Master Plan and $5,000,000 for the Cultural Precinct to be funded from the Hydro Reserve. A website link to the complete AMP has been provided in the Attachments section under Attachment #1.

Ten Year Capital Investment Plan

Complementing the Town’s AMP is its annual Ten Year Capital Investment Plan which represents a consolidation of the anticipated needs of the Town’s departments. All repair, replacement & rehabilitation capital items contained within this plan are guided by the foundational philosophies outlined in the town’s AMP. This plan is intended to assist the managers responsible for each asset category to carefully plan the long term sustainability of each asset, and ensure appropriate and timely budgeting for the replacement of assets at the optimal time, balancing available funding, with the need and condition of the asset and its service.
On October 15, 2016, the 2016 Ten Year Capital Investment Plan was presented to Budget Committee. At that time, staff was asked to insert into the Plan a placeholder for the Cultural Master Plan in the amount of $1,000,000 and the Cultural Precinct in the amount of $5,000,000 to be funded from the Hydro Reserve. These changes have been reflected in the updated 2016 Ten Year Capital Investment Plan. A website link to the complete ten year capital investment plan has been provided in the Attachments section under Attachment #2.

The Ten Year Capital Investment Plan presented contains the detailed plans for assets showing the approved 2016 capital budget plus ten forecast years from 2017 to 2026. These plans have been reviewed and updated by each asset manager.

The ten year plan shows a planned investment requirement of $214 million in total over the next ten years; $104 million for Repair and Replacement, $106.5 million for growth and new assets, and approximately $3.6 million for studies and other.

Draft 2017 Capital Budget

On October 15, 2016, an overview of the draft of the Town’s Capital Budget was presented to the Budget Committee.

As in the past budgets, the capital budget has been presented in three parts:

- Repair and Replacement Infrastructure Capital
- Growth and New Infrastructure Capital
- Studies and Other Non-Infrastructure Projects

As a result of the concept of a “Cash to Capital” reserve allocation from tax levy and the internal funding of capital coming from resultant infrastructure and other reserves, there is no longer a direct impact on the tax rate by the capital budget. As such, the Committee recommended capital budget is driven by asset need rather than impact on taxes. A number of projects have been noted in the schedules as “approved pending a detailed report back to council.” These projects have been approved in principle, but Committee has asked staff to provide additional information prior to any contractual commitments being entered into for the project.

Repair and Replacement Infrastructure Projects

The proposed Repair and Replacement (R&R) Capital Budget for 2017 represents a gross cost of $11,568,472 funded mainly from capital reserves including specific R & R reserves. The 2017 R&R program includes repair work to facilities, roads, sidewalks, playgrounds, parks and the replacement of vehicles and equipment. Management has
confirmed that they have the resource capacity to deliver the proposed capital program.
Attachment #3 provides a summary of the recommended Repair and Replacement Capital program by project, by decision for 2017. Detailed Capital project pages can be viewed through the website link provided in the Attachments section under Attachment #3.

Growth and New Infrastructure Projects
The proposed Growth and New Capital Budget represents a gross cost of $6,505,990. This capital program includes funding for the construction of new sidewalks, a new forklift, street plantings for 2C and a playground and parking facility at Stewart Burnett Park. Attachment #4 provides a summary of the recommended Growth and New Capital program by project, by decision for 2017. Detailed Capital project pages can be viewed through the website link provided in the Attachments section under Attachment #4.

Studies and Other Projects
The proposed major Studies and Other Projects Capital Budget presents a gross cost of $125,000. This includes an Emergency Response Plan Update & Continuation of Operations Plan. Attachment #5 provides a summary of the recommended Studies and Other program by project, by decision for 2017. Detailed Capital project pages can be viewed through the website link provided in the Attachments section under Attachment #5.

Financial Implications
All funding is sourced from existing reserve funds of the Town, and not directly from the tax rate budget or utility rate budgets. The operating budget is a draft at this time for 2017, but it does include a sustainable contribution of funding into a variety of reserve funds in support of the town's ten year capital investment requirements, and is not tied to any specific capital project. Accordingly, the capital budget as recommended may be approved independently of the operating budget.

The draft capital budget materials included proposed funding sources for each capital project. To simplify this report, the recommendations refer to approval of all funding as recommended by Budget Committee for the projects. Where funding was amended by
Budget Committee, the Town's website detailed materials will be updated to reflect such immediately following approval of this report.

**Communications Considerations**

This report along with all attachments will be posted to the Town's website on the Budget and Financial Information page.

**Link to Strategic Plan**

Developing, reviewing and presenting the annual capital investment plan supports several aspects of the Strategic Plan. This report supports the Plan principles of Leadership in Corporate Management, Leveraging Partnerships, and Progressive Corporate Excellence and Continuous Improvement.

**Alternative(s) to the Recommendation**

1. May provide alternative directions with respect to the recommendations arising from Special General Committee – Budget Committee.

**Conclusions**

The 2016 Asset Management Plan provides the framework upon which the town's repair and replacement budget is built by documenting the rationale and processes upon which all R&R capital project decisions are prepared by staff. The Budget Committee recommends that Council formally receive the updated 2016 Asset Management Plan.

The Budget Committee also recommends that council formally receive the Town's updated 2016 Ten Year Capital Investment Plan.

Staff presented to the Budget Committee a capital budget that balanced the repair and replacement of existing assets with new asset request, all of which are required to maintain the Town's existing levels of service that taxpayers have come to expect. Budget Committee has reviewed each proposal in detail, and recommends the approval by Council of the final capital budget as presented herein.

Subject: 2017 Operating Budget

Prepared by: Dan Elliott, Director, Financial Services - Treasurer

Department: Financial Services

Date: November 8, 2016

Recommendation

1. That Report No. FS16-036 be received; and

2. That the 2017 draft Operating Budget be referred to General Committee – Budget for review at its scheduled meetings commencing November 14, 2016; and

3. That, following the completion of the General Committee review, the Treasurer bring forward a final budget approval report reflecting all adjustments recommended by the Committee.

Executive Summary

Council’s targets achieved with room to spare

On July 12, 2016, Council directed staff to prepare the 2017 Operating Budget, with a target tax rate increase equal to inflation. Inflation was subsequently reported as 2.1%. The budget was also to include a further 1% increase for fiscal strategies and infrastructure. This report presents the 2017 draft Operating Budget for review by General Committee – Budget and approval by Council. The 2017 draft operating budget recommended by staff results in a total tax levy pressure of 1.9% which is 0.2% lower than the maximum ceiling allotted by council. The additional 1% brings the total increase of the draft budget to 2.9%. This recommended budget:

- respects council’s maximum defined tax pressure ceiling;
- addresses current budget underfunding in identified areas as reviewed with the Finance Advisory Committee;
- provides the Library Board, the Cultural Centre Board, and the Historical Society with their designated budget funding amount;
- continues with the town’s phase-In budget strategy for the Fire Services expansion;
supports council’s fiscal strategy objectives of reducing the town’s reliance upon Supplementary tax and hydro fund proceed revenues; as well as, continuing to grow the Town’s contributions in support of its infrastructure renewal.

Background

At its meeting of July 12, 2016, Council adopted the following resolutions arising from staff Report No. CFS16-022:

THAT the overall Aurora net tax increase for the Base Operating budget be limited to the reported July to June 2016 Consumer Price Index (CPI) for the Toronto Area; and

THAT all fees, rates and charges be indexed by the same CPI reported value unless precluded by legislation, and new revenue sources identified where possible; and

THAT within the Base Operating Budget, staff will develop a strategy to address current budget underfunding in identified areas such as utilities, and certain program revenue line items as reviewed with Finance Advisory Committee; and

THAT for strategic priorities separately identified by Council, a further increase be levied for such new funding; and

THAT after accommodation of the budget underfunding, the Library Board, the Cultural Centre Board, and the Historical Society will each receive a designated budget funding amount for their respective budget development work; and

THAT a “current plus three year forecast” operating budget be prepared, and include a staffing needs analysis and forecast for the same period.

THAT the phase-In budget strategy currently approved for Fire Services expansion be funded from within the inflationary and growth components of the Base Operating Budget, as applicable, with any excess planned increase being a separate component of the overall tax increase; and

THAT in addition to the base budget increase for inflation, a 1% dedicated Fiscal Strategy tax levy increase be imposed to fund additional contributions to Infrastructure Reserves in accordance with the long range fiscal strategies adopted in the recent Ten Year Capital and Asset Management Plan, and any other fiscal strategy items.
Analysis

Draft budget prepared by staff is below the target set by Council and meets all directives.

Staff are pleased to present the draft 2017 Operating Budget which reflects Council's direction, resulting in an average town share tax increase of 1.9% plus 1% for fiscal strategies for residential properties, representing an amount that is 0.2% below council's maximum defined tax pressure threshold of 3.10%.

The following items of key interest to Council have been reflected in the draft budget:

1. A funding strategy that addresses current budget underfunding in identified areas such as utilities, part time and full time salaries, and certain program revenue line items as reviewed with Finance Advisory Committee.
2. Increased contributions to infrastructure reserves equal to 0.6% of tax levy.
3. Reduced reliance on interest from hydro reserved, reducing last year’s reliance of $200,000 to only $100,000 for 2017.
4. Reduced planned reliance on supplementary tax revenues in accordance with our financial strategy by $75,000 to only $425,000 for 2017.
5. Continued phase-in of expected cost increases for Central York Fire, which, as anticipated, slightly exceeds the budget draft approved by the Joint Council Committee for CYFS. The excess results in a contribution to tax stabilization reserve for future use in this phase-in plan. The Town had previously adopted a phase-in strategy of increasing fire services budget by 1.3% of Aurora’s tax levy each year for six years.
6. All rates, fees, and charges of the Town have been indexed where permissible by 2.1% representing inflation as reported for the 12 month period July to June, 2016.
7. All revenue estimates have been carefully considered in the context of the inflated rates and fees, as well as expected activity volumes and reflected in the budget.

Staff have been able to achieve a base budget reflecting a 1.9% tax levy increase by utilizing new growth revenues arising from the recent growth of the 2C area, together with the above noted revenue changes, as well as constraining wherever possible the costs of operations of the Town. A further 1% increase has been included as directed by Council fiscal strategies such as increased contributions to infrastructure reserves and further reduction in the town’s reliance upon hydro fund investment proceeds and supplementary tax revenues. By having a clear direction of Council, staff were able to focus their attention to developing a budget which would meet Council’s goal.
Attachment #1 outlines the operating expenses of each department, net of their respective non-tax revenues. The total Net Operating budget, so represented, shows the distribution of the actual total tax revenue of $41,748,000. Attachment #2 outlines all revenues by type, showing the total combined revenues of $60,689,100. Attachment #3 shows this information in tabular format in addition to staff’s projected operating budget requirements for three outlook years (2018 to 2020). Attachment #4 outlines graphically the key budget pressures and influences in compiling the 2017 budget, ending with a 2.9% tax increase. The seven previously noted budget highlights are included in these graphics.

The Budget Binder is to be distributed today, and will be available on the Town’s website shortly. Tab #3 of the Budget Binder includes a summary of all corporate Key Performance Indicators. As 2016 is not yet complete, the 2016 targets are shown, together with the 2017 targets. Past results are included. 2016 estimates have been included where possible.

Binder Tab #4 includes a summation of all departmental business objectives for the year which will advance various strategic initiatives of the Town’s Strategic Plan.

Advisory Committee Review

The Financial Advisory Committee is not charged with reviewing the annual operating budget.

Financial Implications

Residential tax bill impacts align close to inflation

Residential tax bills contain three different property taxes. Taxes collected for provincial education purposes represents approximately 20.4% of a residential tax bill, while taxes for York Region are approximately 43.2%, with the remaining 36.4% being retained by the Town for Town purposes.

The Town’s 2.9% tax increase budget adds $9.85 per year to the tax bill for each $100,000 of assessment, or less than $50 for a home assessed at $500,000. For the average Aurora home assessed at $770,000, this budget will add $76 per year for the Town share of the tax bill.

When combined with the York Region’s expected 2.69% tax rate and the revenue neutral education rate to be set by the Province (not until April 2017), the expected combined tax impact to a residential property is 2.23%. For reference, Attachment #5 sets out a history of Aurora’s tax rate increases in recent years.

Total operating budget expenditures surpass $60 million

The proposed budget sets out planned expenditures totalling $60,689,100, funded with non-tax revenues of $18,941,100, such as investment income, user fees, Federal Gas
Tax grants, and fines & penalties. The remaining $41,748,000 requirement is to be raised through property taxes, requiring a 2.9% average tax increase. Attachment #5 outlines Aurora’s history of increases to its property tax levies.

A key budget pressure that is being addressed in this budget relates to the right sizing of multiple current budget underfunded items that have been identified through various means including Financial Advisory Committee detailed budget reviews, in areas which include utilities, full and part time salaries, contracts and reduced revenues. This total right-size pressure is being phased in over a two year period, with 60% of its value being recognized in 2017 and the remainder of 40% in 2018.

Staff are presenting service increase options for consideration at extra cost

A suite of 2017 budget pressures totaling $188,500 which relate to town service enhancements are presented for the budget committee’s consideration over and above staff’s recommended 2.9% tax pressure. A summary of these 2017 budget option decision units is presented under Attachment #6. Details of these items can be found in Tab #5 of the 2017 budget binder package.

Communications Considerations

This report will be posted to the Town’s Budget and Financial Information web page for transparency and accountability as part of the overall annual budget communications and engagement plan. Each budget meeting will be separately communicated through various channels to the community, including a synopsis of the topics planned. A final press release with budget highlights will be issued upon approval by Council.

Link to Strategic Plan

Developing the annual budget supports all aspects of the Strategic Plan. Specifically, this report supports the Plan principles of Leadership in Corporate Management, Leveraging Partnerships, and Progressive Corporate Excellence and Continuous Improvement.

Alternative(s) to the Recommendation

1. None: General Committee will consider the presented draft budget in detail, reviewing materials from each operating department, as well as materials presented by the Library Board, the Aurora Cultural Board, and the Aurora Historical Society. Shortly, the approved 2017 detailed budget for Central York
Fire Services, as reviewed and recommended by the Joint Council Committee will be presented to Committee for comment.

The Committee may make recommendations for changes to the 2017 draft budget at any time during its review process.

Conclusions

Council established a budget target for the 2017 operating budget of inflation plus 1% in support of fiscal strategies, representing a maximum 3.10% tax increase. Staff have responded and have developed a comprehensive budget producing a lower total required tax increase of 2.9%. Of this recommended tax levy increase, 1.9% relates to the town’s core operations; the remainder of 1.0% is fiscal strategy driven. As directed, all revenue rates, fees and charges have been indexed for inflation wherever possible. All operating lines continue to be examined for opportunities for constraint, while maintaining services. All revenue targets were examined for expected volumes of activities. Through careful review, the 2.9% tax increase budget meets all of Council’s criteria and goals set out in their directives to staff.

During the past year, staff have heard of a number of new service level initiatives suggested by members of Council. Where these are indeed new service levels or enhancements, staff have identified costs and details, however have not included these in the 2.9% draft budget. These items are separately described as Budget Option Decision Units, as these can be selected for funding by Council individually. Funding requirements for any chosen by Council will increase the tax increase beyond the drafted 2.9%

**Sewer Use Bylaw fee update**

York Regional Council received an update on the Sewer Use Bylaw enforcement program and approved a **new fee schedule** to help support program initiatives. The enforcement program protects infrastructure, works, the public and the environment from harmful effects of industrial waste being put into the sewage system.

Program officers work with Regional businesses to help educate them on the importance of adhering to the bylaw to protect underground pipes and where required, ensure necessary equipment is in place or changes are made to facility processes to keep polluted water from entering the sewage system.

In addition, where the Procurement Manager, in consultation with the relevant Department Head and the Town Solicitor, is of the opinion that an Award to a Bidder would undermine the business reputation of the Town or undermine the public’s confidence in the integrity of the Town’s Procurement process as a result of the Town having knowledge or information of such Bidder's criminal activity, bid-rigging, anti-competitive practices, or other activities that are meant to undermine the Procurement process (whether at the Town or elsewhere), the Procurement Manager may then determine that such Bidder is not a Responsible Bidder and disqualify such Bidder. 20.3 No Town staff member, Council member, or Local Board member shall personally obtain any Personal Property that has been declared surplus unless it has been obtained in accordance with any applicable provisions of this by-law.

21. **REAL PROPERTY**

21.1 This by-law shall not apply to the acquisition or Sale of Real Property. Real Property interests of the Town shall be acquired or disposed of in accordance with the Town’s Administration Procedure No. 55 – Real Estate Sales, Purchases, and Leases, as may be amended or successor thereof, together with any other applicable process or by-laws dealing with the acquisition, disposal, or Sale of Real Property, which are separate from this by-law.

**PART 6: MISCELLANEOUS CONSIDERATIONS AND GENERAL ITEMS**

22. **TIE BIDS RECEIVED**

22.1 In the case of tie between two Compliant and Responsible Bidders and where multiple awards are not possible, the Town shall determine the winning Bid from the two tied Bids by a coin toss conducted by the Procurement Manager.

22.2 In the case of a tie between three or more Compliant and Responsible Bidders and where multiple awards are not possible, the Town shall determine the winning Bid from the group of tied Bids by a random lottery draw conducted by the Procurement Manager.

23. **NO LOCAL PREFERENCE**

23.1 The Town will endeavour to achieve the best value in its transactions. The Town will not be bound to Purchase Goods or Services based upon Canadian content, nor shall the Town practice local preference in awarding Contracts, unless specifically required to do so by an upper-tier government body. All Procurement processes are to be conducted so as not to unduly exclude local vendors while at the same time maintaining the duty to conduct a fair competition and adhere to the generally accepted legal principles applicable to Procurement.

24. **ENVIRONMENTAL CONSIDERATIONS**

24.1 For the purposes of this section:

"Environmentally Preferred" means Goods and Services that have a lesser impact on human health and the environment when compared with competing products or services. This comparison may consider raw material acquisition, production, recycled content, manufacturing, waste management, packaging, distribution, re-use, operation, maintenance or disposal. An environmentally preferred Good or Service will meet the criteria of a recognized third party certification program, where such a specification exists for that product class.

"Third Party Environmental Certification" means an independent organization that licenses and certifies products that meet environmental standards developed by that organization. The certification programs most
frequently used to certify environmentally preferred products are provided in
the Town's Green Procurement Policy.

24.2 To encourage the procurement of Environmentally Preferred Goods and
Services with due regard to the preservation and enhancement of the natural
environment, Bid Documents may require methods resulting in the least
damage to the environment, such as those products which have a recognized
Third Party Environmental Certification, where practicable and in accordance
with the Town's Green Procurement Policy.

25. ACCESSIBILITY CONSIDERATIONS

25.1 The Town is committed to giving people with disabilities the same opportunity
to access Town Goods and Services and allowing them to benefit from the
same Services, in the same place and in a similar way as other customers.
Pursuant to the provisions of the AODA and s. 5(1) of O. Reg. 191/11, as
amended, the Town shall incorporate accessibility design, criteria, and
features when procuring or acquiring Goods, Services, or facilities, except
where it is not practicable to do so. Programs, Goods, Services, facilities, etc.
should be accessible to persons with disabilities (visible and invisible),
including (without limitation): hearing loss, vision loss, physical or mobility
related impairments, temporary disabilities, learning, speech, language,
cognitive, psychological, psychiatric, intellectual and developmental
disabilities, allergies, and multiple chemical sensitivities.

25.2 If it is determined not to be practicable to incorporate accessibility design,
criteria, and features when Purchasing Goods, Services, or facilities, the
Department Head responsible for any such Procurement shall, upon request,
provide an explanation.

26. BLACK-OUT PERIOD

26.1 Any communication between Bidders and Council members, Town staff, or
Town consultants relating to any solicitation, pending Award or submitted Bids,
other than to Town staff in the Procurement Services Division, is prohibited
during the period of time from the release of the solicitation up to and including
the date that the Contract with the selected Bidder is duly executed and a
Purchase Order has been approved by the Procurement Manager. Any such
communication in violation of this subsection will entitle the Procurement
Manager to disqualify the offending Bidder from consideration for Award.

27. LOBBYING

27.1 From the time the Bid Documents are released in a Solicitation until after the
Award by the Town, no solicitations or lobbying may be made to any Town
staff member, Council member, Town consultant, or to the news media by any
director, officer, principal, employee, agent, family relation, or other
representative of a Bidder (including any other parties that may be involved in
a business relationship with the Bidder) with respect to the merits or value of
the Bidder's Bid. Any such communication in violation of this section will
entitle the Procurement Manager to disqualify the offending Bidder from
consideration for Award. This subsection does not apply to presentations or
degagements expressly requested by Town staff or by Council, whether in the
Bid Documents or otherwise.

28. BY-LAW REVIEW

28.1 This by-law shall be monitored and evaluated for effectiveness continuously by
the Procurement Manager and shall be comprehensively reviewed upon
specific request by the CAO or by Council.

29. REPEAL, PRECEDENCE, AND TRANSITION
29.1 By-law Number 5500-13, as amended, and all schedules thereto, is hereby repealed on the day of this by-law coming into force and effect.

29.2 This by-law shall take precedence in the case of any conflict with any other Town policies or procedures relating to Procurement.

29.3 Notwithstanding section 29.1, for the purposes of transition to this by-law, all Procurement that commenced (being the date that Bid Documents were released to the public in a Solicitation) prior to the effective date of this by-law are subject to the provisions of By-law Number 5500-13 up to and including the Award of the Contract or Purchase Order.

30. **SHORT TITLE**

30.1 This by-law may be referred to as the “Procurement By-law”.

Statement of Cultural Heritage Value or Interest

The cultural heritage value of the property derives from its architectural, historical and contextual values. The Edward Coltham Farm House has cultural heritage value as it is representative of the region’s historical farming community.

Physical Design Value

Built circa 1915, the Edward Coltham Farm House is a two (2) storey structure with a truncated hipped roof and a red brick veneer. The farm house is considered to be designed as a vernacular interpretation of Edwardian Classicism architecture.

Historical/Associative Value:

The Edward Coltham Farm House is historically associated with the Coltham family, who farmed the property from 1890 to 1963 in this part of the former Whitchurch Township. In 1966, the property was incorporated into the Emmanuel Convalescent Foundation, later named the Southdown Institute, which provided professional and integrated services to persons in church ministries from across Canada. The farm house was retained within the development, serving as a residential component within the institution until 2013.

Contextual Value:

The Edward Coltham Farm House has contextual value as the farm house is historically, physically and visually linked to its setting on the south side of St. John’s Sideroad where it serves as a reminder of the agricultural origins of the area.
