   Re: A Comparison of Select Municipal Multi-Year Budget Frameworks

   Staff provided an overview of the comparison study of various municipalities with multi-year budget frameworks and noted that the City of Waterloo’s multi-
year budget framework would be the best example upon which to build the Town’s framework.

The Committee inquired about the implementation and approval process should City of Waterloo’s budget framework be considered. Staff noted that it would include two formal budget processes where Council would approve the budget for the first year of its term and receive an overview of the next three years and subsequently approve the remaining three-year budget in the second year of its term, with the condition that each future year budget is reconfirmed prior to each year commencing. It was suggested that further information on Waterloo’s budget framework including its future year budget reconfirmation report, and York Region’s budget reconfirming structure be provided to the Committee.

The Committee further inquired about the next steps, and staff noted that the proposed multi-year budget framework would be incorporated in the Council’s budget principles and guidelines including details on requirements to mitigate inflation and be brought to the Committee for discussion prior to Council approval.
