

Notice of Construction

Please be advised that Buildscapes Construction Ltd (the “Contractor”) has been contracted by the Town of Aurora to pave the Lambert Willson Snow Disposal Site parking lot and accessway.

This work has been deemed to be essential and will be undertaken by the Contractor during the COVID-19 pandemic. The Contractor will be subject to personal safety and protection guidelines that have been set out by the Province of Ontario in relation to the COVID-19 Pandemic.

PROJECT DETAILS

The Lambert Willson parking lot and accessway will be closed off to the public for the duration of construction -currently expected to take 60 working days.

The Construction consists of installing new storm sewer, oil/grit separator, regrading and paving of the parking lot and accessway, installation of new continuous concrete curbs, and relocation of an existing hydro-transformer.

Construction sites can be hazardous and pose many hidden dangers. Therefore, we ask that all residents, especially children, stay clear of the work area, even when the Contractor is not on site. Safety is in everyone’s best interest.

EXPECTED DURATION AND HOURS OF WORK

Work is anticipated to begin mid July 2021 and continue for an estimated 60 working days- weather permitting and subject to other delays.

Hours of construction will be between 7 a.m. and 7 p.m. Monday to Friday, and potentially Saturdays 7 a.m. to 5 p.m. To perform specific tasks, the contractor may be required to work beyond the designated hours of construction. This will be permitted only if it will provide less overall public inconvenience. No work is currently scheduled outside of normal working hours.

CONTACT

We ask that residents stay clear of the construction area, keep their distance from all workers involved in the construction and direct any questions, concerns or requests via email or telephone to the Town.

If you have any questions or comments regarding this project, please contact **Mr. Dan Vink**, Construction Administrator, at the Town of Aurora, Planning and Development Services Department Engineering Division, by telephone at 905-727-3123, extension 4361 or by email at dvink@aurora.ca.
