## I registered but I did not receive my registration email. What should I do?

### There are a couple of things to check:

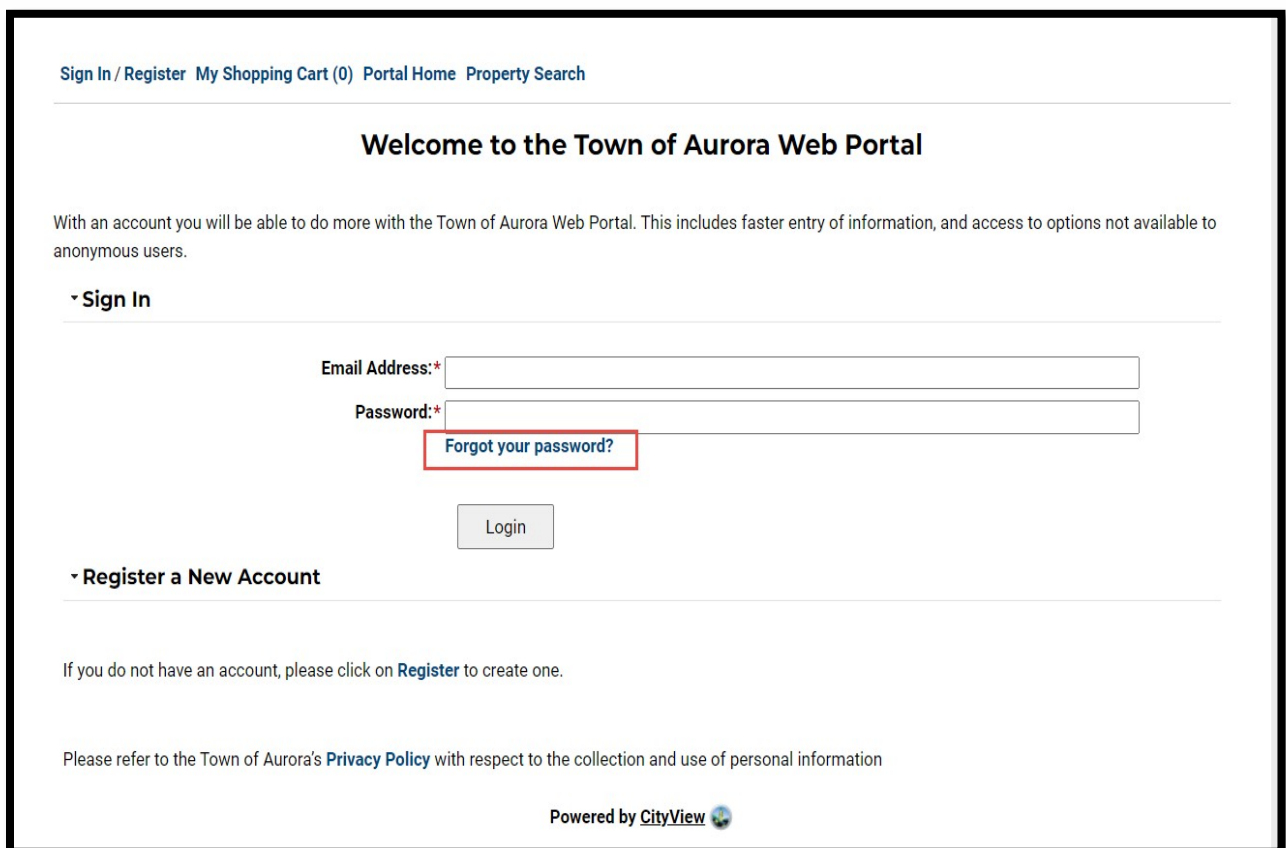

- You should receive an email within 15 minutes of registering. However, sometimes emails can be delayed for reasons out of our control. Give it a couple of minutes.
- Did you spell your email address correctly? If you are not sure, you could try registering again with the same email address. If we already have that email on file, you will see a message indicting **An account already exists for this username.**
- Check your junk folders. Sometimes messages end up in places we do not intend.

If the suggestions above do not help, please contact us at [cvcomments@aurora.ca](mailto:cvcomments@aurora.ca) and provide your email address so we can activate your account for you.
