BACKGROUND

At the April 21, 2015 General Committee meeting, staff report PR15-010 was presented.

As a follow-up to the discussion regarding the report, staff have calculated the approximate number of man hours that would be re-deployed if the Aurora King Baseball Association (AKBA) were to be engaged to maintain the infield at Stewart Burnett ball diamond.

From the period of May to September, we approximate 1.5 hours per day or an annual re-deployment of 230 man hours.
