Tree inventory

Refer to Table 1 of report dated 30 April 2025 for complete tree inventory information. All tree resources greater than 5cm DBH and within 6m of the study area and regional trees of all sizes were included in the inventory.

Removal of 52 trees and one polygon will be required to accommodate the proposed development. Tree removals are indicated with RED labels.

Preservation of all other trees will be possible with appropriate tree protection measures. Trees identified for preservation are indicated with GREEN labels. Minimum Tree Preservation Zones and required Tree Preservation Fencing are indicated in MAGENTA. TPZ circles represent minimum distances for construction and grading near trees. Refer to Tree Protection Plan Notes for preservation details.

Location of extent of AirSpading and/or root pruning (Thick CYAN)

Tree label (GREEN), preservation

Minimum tree preservation zone (MAGENTA), with radius, as measured from edge of tree

Minimum tree preservation zone of tree(s) identified for removal (shown for select trees)
